RACGP 2011-2013 Triennium

Join other Sydney GPs in an interactive educational session by leading Macquarie University Specialists. As well as learning about developments in their respective fields, you will have the opportunity to raise questions and discuss issues with these specialists. Registration commences at 6.30pm with drinks, followed by rotating presentations by specialists, with round-table discussions. A delicious seafood buffet will be provided. The event will conclude around 9.45pm.

## THE EXPERTS

### DR NICOLAS ODDONE-BARIDON

Dr Nicolas Oddone-Baridon is a General Surgeon with a subspecialty interest in Head and Neck surgery. After completing General Surgery training in 2005, he undertook three years of postgraduate training. He then spent a year at Queen Elizabeth Hospital in Adelaide, then two years at Westmead Hospital in Sydney where he was the Surgical Oncology and Head and Neck Fellow. Dr Oddone-Baridon's main interest is endocrine and salivary gland surgery. He has a particular interest in minimally invasive approaches for thyroid and parathyroid surgery, with the introduction of new procedures, such as MIVAT (Minimally Invasive Video Assisted Thyroidectomy) and in the next year robotic assisted thyroidectomy. As a Surgical Oncologist, Dr Oddone-Baridon is also involved in the care of patients with Melanoma, particularly in the Head and Neck area. He has expertise in sentinel node procedures as well as neck, axillary and groin dissections.

**Topic: MIVAP (Minimally Invasive Video Assisted Parathyroidectomy)**

### DR CARSTEN PALME

Dr Carsten Palme is an Otolaryngology Head and Neck Surgeon at Macquarie University Hospital. His clinical interests include adult and paediatric ear, nose and throat disorders, thyroid and parathyroid surgery, voice and laser surgery, salivary gland disorders and head and neck cancer.

After attending medical school at the University of Sydney, Dr Palme completed four years of advanced training in Otolaryngology Head and Neck Surgery and obtained his Fellowship of the Royal Australasian College of Surgeons in 2002. Dr Palme completed post-training fellowships in the American Head and Neck Society Head and Neck Oncology Program, University of Toronto, Canada and in Laser Head and Neck Surgery, University of Göttingen, Germany. Dr Palme is a Fellow of the Royal Australasian College of Surgeons and a member of the Australian Society of Otolaryngology Head and Neck Surgery, the Australian and New Zealand Society of Head and Neck Surgery and the American Head and Neck Surgery Society.

**Topic: The Hoarse Voice**

### DR NAVIN NILES

Dr Navin Niles is a Head and Neck surgeon at Macquarie University Hospital and a Clinical Lecturer with the Australian School of Advanced Medicine. A graduate of the University of New South Wales, Dr Niles completed his advanced surgical training at Liverpool Hospital, completing the first year of his post-fellowship training in endocrine surgery at St George's Hospital in Kogarah and his second year at Liverpool Hospital. Dr Niles specialises in thyroid, parathyroid and adrenal surgery. He has expertise in salivary gland surgery, benign and malignant neck disease.

**Topic: Thyroid and Robot Thyroid**

### DR JONATHAN CLARK

Dr Jonathan Clark is a Head and Neck surgeon with clinical appointments at Royal Prince Alfred and Liverpool Hospitals. He directs the international fellowship program and clinical research at the Sydney Head and Neck Cancer Institute, and is Head of Department, Head and Neck Surgery at Liverpool Hospital. He is actively involved in research, particularly in the field of metastatic skin cancer and coordinates multiple prospective trials.

Dr Clark's medical training took place at the University of NSW and he trained as a general surgeon before undertaking Head and Neck provisional fellowship training at St. Vincent's, Royal Prince Alfred and Westmead Hospitals in Sydney. He undertook a two-year fellowship in Head and Neck oncologic and reconstructive surgery at the University Health Network, Toronto Canada as part of the American Head and Neck Society advanced oncologic training program. He was awarded a Clinical fellowship with the Cancer Institute NSW and has completed a post graduate Masters of Biostatistics at the University of Sydney.

Dr Clark's clinical focus is on surgery for advanced skin cancer, mucosal cancer, thyroid cancer and salivary gland tumours. He has a particular interest in transoral robotic surgery (TORS) for oropharyngeal cancer and expertise in microvascular reconstruction of the head and neck. He has trained numerous international surgeons via the Sydney Head and Neck Cancer Institute fellowship program.

**Topic: Tonsil and Tongue Base Cancer**
