MACQUARIE UNIVERSITY HOSPITAL

Macquarie University Hospital is Australia's first and only private hospital on a university campus. We are committed to delivering a positive patient experience and superior clinical outcomes through the best available care.

This state-of-the-art hospital offers a comprehensive range of services and specialist areas and features the latest technology, much of it unavailable anywhere else in the country.

To bring the best outcomes to our patients, Macquarie University Hospital follows three simply stated aims:
to heal, to learn, to discover.

**For a list of all our specialists please visit
www.muh.org.au**

This program was developed by ZEST Healthcare Communications, an authorised provider of Accredited Activities under the RACGP QI&CPD Program.

RACGP 2011-2013 Triennium

Join other Sydney GPs in an interactive educational session by leading Macquarie University Specialists. As well as learning about developments in their respective fields, you will have the opportunity to raise questions and discuss issues with these specialists.

Registration commences at 6.30pm with drinks, followed by rotating presentations by specialists, with round-table discussions. Dinner will be provided. The event will conclude around 9.45pm.

MACQUARIE UNIVERSITY CANCER INSTITUTE BREAST CANCER PROGRAM AT MACQUARIE UNIVERSITY HOSPITAL

The Macquarie University Cancer Institute ("MCI") brings together teams of committed health professionals and researchers, with patient care as its central focus. Cancer specialists work collaboratively to develop individualised care plans, which are supported by oncology nurses and allied health professionals.

The MCI is a totally integrated program with onsite consulting, radiation oncology, medical oncology and cancer imaging (with MRI and PET-CT scanning). Cancer site-specific multidisciplinary team meetings occur weekly as part of our pre and post treatment care planning.

To make an appointment, please call the MCI on its **CANCER HOTLINE 02 9887 8887** or for an undiagnosed breast problem, please call the **BREAST ASSESSMENT CLINIC 02 9887 8889**.

PROFESSOR JOHN BOYAGES

John Boyages is a cancer specialist with 30 years' experience in the diagnosis and treatment of breast cancer. He is the Director and Professor of Breast Oncology at the Macquarie University Cancer Institute. He was the founding director of the Westmead Breast Cancer Institute and has published more than 135 research and clinical articles and is committed to the dissemination of research findings to lay and professional audiences.

He is a busy radiation oncologist and author of Breast Cancer: Taking Control for patients and their families and Clinical Breast Examination: Taking Control for health professionals. At the Macquarie University Cancer Institute based at the new Macquarie University Hospital, he is developing a new multidisciplinary cancer program with significant expertise in breast, prostate, head and neck and brain cancers linking clinical excellence with research and education.

Topic: Clinical breast examination

DR ELISABETH ELDER

Dr Elisabeth Elder graduated from the Karolinska Institute in Stockholm, Sweden in 1992 where she also completed her general surgical training and a PhD in tumour biology in 2002. After migrating to Australia for family reasons, she specialised in breast cancer surgery at Concord Hospital, the Royal Hospital for Women and Royal North Shore Hospital where she completed her FRACS, before taking up a staff specialist position in the Breast Cancer Institute at Westmead Hospital. She also returned to the Karolinska Hospital during 2009 to develop skills in oncoplastic breast surgery techniques. Dr Elder will be providing breast cancer surgical services at Macquarie University Hospital with an appointment as clinical senior lecturer at Macquarie University.

Topic: Breast cancer and surgical options

DR THOMAS LAM

Dr Thomas Lam is a plastic and reconstructive surgeon with a special interest in breast reconstruction after mastectomy for breast cancer. He has performed over 500 breast reconstructions with various techniques and is currently completing his doctorate in clinical surgery on the effect of radiotherapy on immediate breast reconstruction.

Topic: The role of the plastic surgeon

DR JEREMY HSU

Dr Jeremy Hsu is a general surgeon with subspecialty training in breast cancer surgery as well as trauma/surgical critical care. Dr Hsu undertook surgical training at Royal North Shore Hospital, Westmead Hospital and Nepean Hospital. He then spent a year at Harborview Medical Centre in Seattle, Washington, USA where he also completed a fellowship in trauma/surgical critical care.

Following this, he completed a breast cancer surgery fellowship at the Westmead Breast Cancer Institute. It was here where he gained considerable experience in multidisciplinary cancer care, as well as advanced surgical techniques.

Topic: Understanding the triple test
