Triennium

Join other Sydney GPs in an interactive educational session by leading Macquarie University Specialists. As well as learning about developments in their respective fields, you will have the opportunity to raise questions and discuss issues with these specialists.

Registration commences at 6.20pm with drinks, followed by rotating presentations by specialists, with round-table discussions. Dinner will be provided. The event will conclude around 9.45pm.

THE EXPERTS

ASSOCIATE PROFESSOR DESMOND BOKOR

Associate Professor Bokor is an orthopaedic surgeon with a subspecialty interest in shoulder and elbow surgery. He graduated from Monash University in Melbourne with honours and completed his orthopaedic training in Sydney through the Australian Orthopaedic Association training program.

Following this, he completed fellowships in sports medicine/ knee surgery in Sydney and then spent time at the University of Western Ontario, Canada, as a fellow training in shoulder surgery. He has a Master of Higher Education (Medical) from Macquarie University.

Associate Professor Bokor is a founding member of the Shoulder and Elbow Society of Australia and a member of the American Shoulder and Elbow Surgeons Society, as well as of the Australian Orthopaedic Association, the Australian Medical Association and Sports Medicine Australia. He is also currently Associate Professor and Chair of Orthopaedics and Musculoskeletal Medicine at the Australian School of Advanced Medicine and of Macquarie University Hospital Orthopaedics.

DR PETER WALKER

Dr Peter Walker is a specialist in hip and knee disorders. He graduated from the University of New South Wales with honours. He completed his orthopaedic training in Sydney in 2000 and was awarded the Zimmer traveling fellowship. He then travelled to Boston in the USA, and Toronto in Canada to complete two fellowships in hip and knee surgery and started his orthopaedic practice in 2001.

He performs approximately 750 operations per year including all types of hip and knee surgery with a special interest in computer navigation, ligament reconstructions, hip arthroscopy, cartilage grafting and revision joint replacements.

Dr Walker is involved in research in a number of these areas and has numerous peer review publications in orthopaedic literature and lectures both here and overseas on a regular basis.

DR SAMEER VISWANATHAN

Dr Sameer Viswanathan completed his medical education at Sydney University. He completed his orthopaedic training in Queensland and was admitted to the RACS in 2007. In 2009 he underwent subspecialty training in hip and knee replacements. Subsequently, Dr Viswanathan completed a fellowship in foot and ankle surgery at the Royal North Shore Hospital. Dr Viswanathan is a fellow of the Royal Australasian College of Surgeons, an Associate Member of the Australian Orthopaedic Association, and a member of the Australian Medical Association. He is also a lecturer at the Australian School of Advanced Medicine. Dr Viswanathan provides consultative and surgical services for conditions of the foot, ankle and knee. His interests include foot and ankle surgery including bunions, foot deformities and fusions for arthritis, management of fractures, computer navigated knee replacement, arthroscopy of the knee and ankle and general orthopaedics.

MR DAVOR SARAVANJA

Mr Davor Saravanja is an orthopaedic and spine surgeon specialising in spinal problems, including complex deformity (scoliosis, kyphosis), tumours, degenerative and paediatric spinal conditions. He has appointments at Macquarie University Hospital and Sydney Children's Hospital. After completing an orthopaedic fellowship in Australia in 2007, Mr Saravanja travelled to Canada to complete the Spine Program Fellowship at Vancouver General Hospital. He then did an additional six-month fellowship at British Columbia Children's Hospital in paediatric spinal surgery. Mr Saravanja is involved in numerous research projects and has completed world leading research in the field of primary bone tumours affecting the spine. He has also published numerous articles on spine surgery.
