Dear Doctor,

Re: SKIN CANCER – out-patient procedures clinic.

A number of our Plastic Surgeons at MQ Health (Macquarie University Health Sciences Centre) have decided to hold a weekly skin cancer clinic to support our local GP community during these difficult times. This clinic would be appropriate for any of your patients that present with a suspicious skin lesion that you feel requires further investigation.

This clinic is designed to provide your patient, that has an urgent need, rapid access to our specialists in dermatology and plastic surgery who have over 20 years of experience in treating skin cancer.

We have the facilities, and support staff, to perform minor procedures (biopsies, excisions) under local anaesthetics for any suspicious skin lesions requiring pathological diagnosis.

If you need to engage our services, please make out your referral to:

MQ Health Integrated Skin Cancer Clinic
Suite 301, Level 3
2 Technology Place
Macquarie University NSW 2109

Your patients can call our reception team on (02) 9812 3765 to make an appointment.

We hope this service provides you with some support in your on-going efforts in the current COVID-19 crisis.

Sincerely,

Prof Anand Deva

Participating specialists:

- Prof Anand Deva  BSc(Med), MBBS(Hons), MS, FRACS
- A/Prof Gazi Hussain  MBBS, FRACS, President of ASPS, GAICD
